

TCM Forklift Part

TCM Forklift Part - In the global industry of material handling, lift trucks play a major part for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in the U.S., forklifts gained popularity following World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread worldwide.

In nineteen forty nine, founded by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the company is simply called TCM Corporation. Over the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation in the business. TCM began building lift truck manufacturing sites outside of Japan in the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in Chine, the United States and Europe.

With more than 50 years of accumulated technology and expertise, TCM has been proudly manufacturing many models of industrial lift trucks, making their models known all over the world. With a strong and energetic workers, TCM has been able to constantly work towards becoming a future leading material handling company.
