

Rockwell Parts

Rockwell Parts - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to exceed and meet their clients' expectations for service, technology, delivery and quality. They believe in working in an atmosphere which supports the highest integrity with empowered teamwork, together with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious company and providing a safe atmosphere for their employees to work in. Moreover, they have implemented several programs in the organization so as to help articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever questions or comments, as they are glad to share and promote this policy with a greater understanding of their efforts. They are extremely dedicated to improving and preserving the natural world. AxleTech has an EHS program that not just protects the environment but which even actively protects their neighbors and workers too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in designing and manufacturing planetary axles used for both military and commercial applications. These applications vary from construction equipment to airport ground support. AxleTech particularly designs axles to meet particular application demands. They have more than 1000 different axle specs within their existing offering. With over 100+ years of knowledge and history, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in numerous commercial and military applications. They offer complete axle assemblies used for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have further details which could be seen in the "ISAS" product selection.
