

## Barrel Clamp

Barrel Clamps - Called "Barrel Clamp", this hydraulic attachment is used on forklifts to compress items that you wish to transfer utilizing the lift truck. Usually, they are utilized in order to paper rolls, barrels, and handle kegs, together with some barrel clamp designs having the ability to revolve the load. Like for example, the revolving function permits the individual operating the forklift to be able to insert a vertically stored paper into the horizontal intake of a printing press.
